Pit Area

CAMU Update

- Conceptual Site Model - Approved
- Borrow Area
 - Rough excavation completed
 - Roughly 460,000 cubic yards excavated
 - Old wells abandoned

CAMU Update (contd.)

- Slit-Trench RAS – Approved
 - ROD Approved
- RAP (CAMU Permit) – Approved
 - NDEP Design Review Underway

Planned Activities

Activities - 1

- Documents
 - Parcel 4A/4B Revised Data Reports
 - Mohawk Sampling and Analysis Plan (SAP)
 - Other area SAPs
 - Others (DVSRs), etc.
- Field Activities
 - Will develop draft report for Deep Soils Background
 - Will implement baseline dust monitoring
- Remediation/Construction Preparations
 - Select Contractor

Activities - 2

- Public Involvement Activities
 - Website at www.landwellco.com now updated
 - All important project documents available on the website.
 - Informational Kiosk – opened in late in November 2006. Several panels upgraded in June
 - Will rely on website and BMI office for documents requests. Will not proceed with the Document Repository, as originally planned.

Next Meeting

- April 10, 2008
 - Is RAC interested in site tour?
 - Should RAC focus change as we progress into remediation?
